Our Services

Our physical therapist provides comprehensive examination, evaluation and intervention including but not limited to:

- Evaluation of gait, mobility, posture and balance
- Assessment of motor function, strength, tone and range of motion
- Collaboration with providers of services for orthotics, assistive devices and adaptive equipment
- Education in home exercise program
- Intervention addressing gross motor abilities with a functional approach to foster independence
- Communication and collaboration with other service providers including occupational therapy, speech therapy, case managers and primary care physicians

Benefits of Coastal Direct Pediatric Physical Therapy:

- No insurance authorization or physician order needed... which means faster access to services
- Insurance companies cannot dictate the length, duration or type of services provided, including wellness services
